

RUGGED PRODUCTS

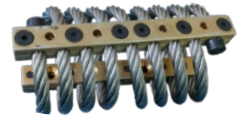

RUGGED PANEL PC'S, DISPLAY, CPU, Laptops & Tabs

RUGGED & INDUSTRIAL UPS, NVR

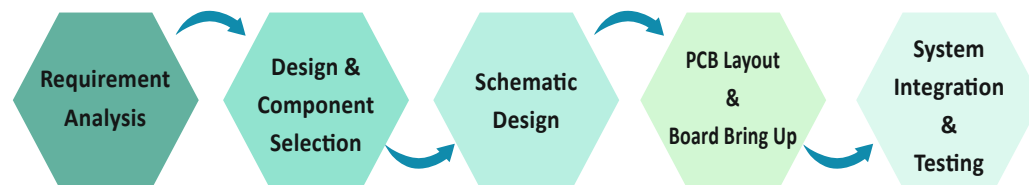

WIRE ROPE ISOLATORS (Racks Mount, Consoles and outdoor cabinets)

Design Services

Our Product design process is meticulously crafted to transform your vision into reality, ensuring innovation, quality, and customer satisfaction at every step. Here's how we bring ideas to life through our comprehensive design process.

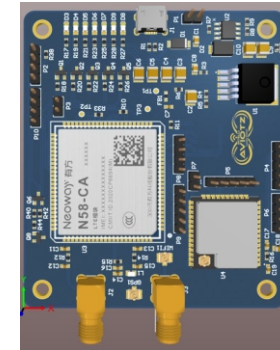

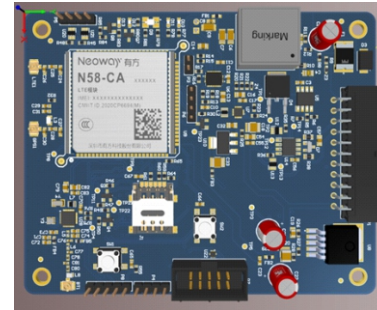

SOLUTIONS

4G+WiFi OCPP Control Card

Features

24V input supply range
OCPP 1.6J supported
4G fall back of 2G, WIFI, BLE and optional ETHERNET(LAN)
RS485, UART supported
Supports, web-socket, MQTT, HTTP/HTTPS, FTP, TCP
FOTA is supported

3 kW Digital Power - AI Data Center

ARM Cortex-M4F N32H474
Efficiency: Peak system efficiency $\geq 97.7\%$, PF > 0.99 at 50%~100% load.
Excellent Electrical Performance: 3 half-bridge
LLC achieves high efficiency
Comprehensive Protection Features:
O/P over-current/over-voltage, and
I/P under/over-voltage protections
Convenient Development Ecosystem:
HunterWave OS ecosystem, online parameter configuration
waveform analysis, and one-stop protection strategy management
